***DETAILED OFFICE ACTION***

***Election/Restrictions***

Claims 1- 24 are pending in this application.

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

**Group I. Claims 1-8, 17-18 drawn to a semiconductor device, classified in class 257, subclass 390.**

**Group II. Claims 9-16, 19-24 drawn to process of making a semiconductor device, classified in class 438, and subclass 128.**

The Examiner noted that claims **19-24 are not proper** since they are **method Claims** and can not depend on Claim 18 which is a **Device Claim**.

For those claims to be considered. Applicant are required to amend those claims in independent forms or proper dependent forms.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of following can be shown: (1) that the process as claimed can be use to make other and materially different product or by hand, or (2) that process as claimed can be made by another and materially different process. (MPEP § 806.05(f)). In the instance case unpatentabilities of the group I invention would not necessarily imply unpatentability of the group II invention, since the device of the group I invention could be made by the processes materially different from those of the group II invention, for example, in the claim 9, wherein in the method of forming a buried bit line integrated circuit device of claim1, the formation

of the bit line can be implemented by epitaxial growth which is materially different from the method of claim 9 using doping.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the fields of search are not co-extensive. Therefore, separate examination would be required and restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

5. Any inquiry concerning this communication on earlier communications from the examiner should be directed to Thinh T Nguyen whose telephone number is (703) 305-0421. The examiner can normally be reached on Monday-Friday from 7:30 AM to 5:00 PM. The examiner's supervisor, David Nelms can be reached on (703) 308-4910.
